

## Life In The New World Order

Nations will be governed by ESG scores (Environmental, Social, Governance).

Counties must adopt United Nations mandated "climate change" initiatives.

Increase private business regulation directed toward global goals.

Expand taxation to the point it's difficult to live.

Countries will be forced to accept illegal immigration.

30X30 Land Grab - By 2030, 30% of American land is to be controlled by the government.
